\* Our chocolate is made of premium chocolate chips that are easy to use. It is a dark chocolate which may be microwaved, run under warm water, or melted in the lower section of the fountain. The 34” fountain requires 7 bags of chocolate to start, the 27” fountain requires 4 bags to start, and the 19” fountain requires 2 bags to start. Keep adding chocolate as gaps begin to appear, unless you are winding down and want to use the chocolate up.

\*\* These are general guidelines for use. We suggest that you purchase additional bags of chocolate so that you do not run short. Chocolate may be reclaimed and stored for your future use.
